

CM-902F WIRELESS CMOS CAMERAS 900 MHz WITH FCC APPROVED TRANSMITTER

This is the same type of wireless camera but for ISM band 900 MHz. Fully PLL controlled unit available in two channels 902 MHz and 916 MHz.

The transmitter is FCC approved under Part 15

Model numbers: CM-902F and CM-916F

| Technical Specifications | |
|---|--------------------|
| Size: | 0.7" X 1" X 0.8" |
| Current consumption | 60 mA/ 9V |
| Power supply | 9 V |
| Transmitting frequencies | TV channels |
| Range | app. 300-500 ft |
| Camera resolution | 330 lines |
| Pinhole lens | Polarity protected |
| Transmitting power 1 mW (with FCC approved transmitter 900 MHz) | |
