

## CT-H4 HIGH POWER VIDEO SENDER FOR FILM

This is a High power UHF Video transmitter designed for Steadicam users or TV and Film production. The range is 600 ft line-of-sight under ideal conditions. This transmitter has excellent color picture quality. This transmitter has 4 preprogrammed channels in UHF band, they are: CH44, CH46, CH51, CH54. This sender has a BNC output antenna connector.

Technical Specifications	
Operating Frequency:	CH 44, CH 46, CH 51, CH 54
DC voltage:	12V
RF power	120 mW
Minimum required voltage:	11V
Battery power:	12-14 V MAX
Video distortion:	1 %
Video Modulation:	Negative AM, Broadcast quality
Current consumption:	350 mA
Audio input:	300 mV
Antenna connector:	N/A
Video input:	1 V
Temperature range:	-5 + 70 °C
Dimensions:	4.5"x3"x1"
Weight:	300 grams
