
LX-440
434 MHz UHF HIGH POWER
VIDEO TRANSMITTER

Video transmitter LX-430 is a high power unit made for long range application. This audio video transmitter has 12 selectable channels in UHF band. It has over 10 W RF power /50 ohms. This transmitter requires 12 V DC power / 4A.

Technical Specifications	
Frequency 430 MHz- 470 MHz	Channels: 12
DC Voltage: 12 V	RF output power: 10 W/ 50 ohms
Minimum required voltage: 12 V	Battery power: 12 V – 14.4 V
Maximum range: 15 km with directional antenna 10 dB	Video format: NTSC / PAL
Current consumption: 4 A/ 12 V	Video connector: RCA Female
Temperature range: -40 + 75 *C	Dimensions: 8"x6"x3.5"
Weight: 2 lb	Polarity protected
