

KNS-120 FM AMPLIFIER 120 W FOR 88 MHz- 108 MHz

This amplifier is the best seller unit since FCC increased maximum allowed power for LPFM stations. It is fully protected and needs 10 W input for the maximum power 120 W. With our exciter PM 20 power output is adjustable from 0 - 120 W.

Technical Specifications	
Operating Frequencies:	88-108 MHz
Operating class:	C
AC Voltage:	110 V – 240 V
RF power:	120 W
Input power:	0-10 W
VSWR protected:	YES
Battery power:	28 V
Current Consumption:	7 A DC, 3.5 AC
Antenna Connector:	N
Temperature Range:	-20+65
Dimensions:	19" RACK MOUNT
Weight:	25 lb
Impedance:	50 OHMS
